

Lock-Locker Compatibility Program™

**Master
Lock**

Have Confidence in Your Lock and Locker Selections!

A seal of approval from Master Lock to locker manufacturers participating in the Lock-Locker Compatibility Program.™

We are dedicated to providing you with a problem free solution.

Compatibility & Quality Program

Master Lock Company

Locker Manufacturers

= A COMMITMENT TO LOCK AND LOCKER COMPATIBILITY AND QUALITY

We understand that the compatibility between lock and locker must be seamless. This is especially important when purchasing each product from a different source.

When choosing a lock and locker combination for your installation, choose the products that have been tested, matched and verified to work together.

Master Lock has developed a locker product verification collaborative and testing program. It is designed to help ensure the locker purchaser receives a high quality, seamless, locker locking solution.

Program Elements

✓ **Annual Compatibility Review**
Verification testing and design review by engineers ensuring compatibility between locks and lockers.

✓ **Periodic Production Spot Checks**
Locker manufacturers perform periodic operation compatibility testing of locks on actual locker orders.

✓ **New Product Validation**
Ensures that new lock and locker products work as intended before introduction, providing seamless locker locking.

✓ **Annual Design Conference**
Master Lock and locker engineers meet to support, collaborate and assist in continuous improvements.

Participating Lock-Locker Compatibility Program Locker Manufacturers

DeBourgh Manufacturing Co.

27505 Otero Ave. • La Junta, CO 81050

1.800.328.8829

Locker manufacturers participating in this program have agreed to conduct lock-locker testing and work in collaboration with Master Lock. This does not guarantee specific security or durability standards. Locker purchasers should conduct their own evaluation of lock-locker solutions prior to purchase to ensure the selected lock-locker solution meets their needs.
