

Interchangeable Core Padlocks & Cylinders

Padlocks and Cores

It is easy to custom build a Master Lock IC order to exactly match your product requirements. Specify the lock body housings and shackle dimensions you require (Chart B). Cores may be ordered both as part of a complete Master Lock IC padlock assembly, or separately, keyed up and ready to plug into your system.

Weather Tough®
to withstand harsh outdoor environments

Shrouded
for maximum tamper protection

Solid Steel
for maximum security against physical attacks

Solid Brass
for protection in corrosive atmospheres

Solid Aluminum
for industrial safety lockout and color-coded security applications

Interchangeable Cores
16 keyways for compatibility with your system
